☒ Test Submission

☐ Formal Submission

Select

Test submission is a valuable tool that will edit data as if it is your formal submission. OSHDP strongly recommends that facilities take advantage of this feedback tool to view results and/or correct your data prior to formal submission. Be advised that the test submission is only a tool and will NOT be considered a "formal" submission of data to OSHDP.

Formal submission to OSHDP will edit your data and will result in a formal approval or rejection. If approved, no further corrections will be allowed. Any errors remaining under the Error Tolerance Level will be defaulted prior to the data being available for public use. If rejected, you will be advised of the errors and will be required to correct those errors or resubmit data by a specified date.
